

Do you want an environment in which you and your strengths can fully contribute? Then come to us to **Renchen** (between Baden-Baden and Offenburg) as

## MECHATRONICS ENGINEER | m/f with longterm assignment to North America

With a global presence in more than 40 countries and a know-how that has grown over 150 years, we tackle the most demanding construction engineering challenges. We are the specialists for geotechnical solutions - worldwide.

**KGS Keller Geräte & Service GmbH** is manufacturer and service provider of all companies of the Keller Group. The new development, further development and production as well as the securing of a functioning machine park are main tasks of the KGS.

### Your tasks:

- ▶ You are responsible for the construction, maintenance and repair of Keller construction machines.
- ▶ This includes the commissioning, testing, setting and connection of mechanical, hydraulic, pneumatic, electrical and electronic systems to your tasks. In addition, you can apply various plans, such as circuit diagrams and assembly drawings.
- ▶ Support for installations, commissioning, product demonstrations and training of operating personnel within the Keller Group in Northamerica
- ▶ You work in modern workshops or partly on site in customer service in the maintenance, repair and repair of various Keller construction machines.

### Your profile:

- ▶ You have your training as an agricultural | construction machinery mechanics, locksmith, industrial mechanic, automotive mechanic or a comparable educational level
- ▶ Professional experience and good knowledge of hydraulic systems and in control technology
- ▶ Teamwork, reliable and independent way of working
- ▶ International driving license class C / CE
- ▶ Fluent language skills in English, spoken and written

**Our foundation for your career start:** We offer a demanding and challenging working environment, a modern workplace, good conditions for the compatibility of work and family, a pleasant working environment, the possibility for regular training, flat hierarchies, independent and responsible work in their area of responsibility. Become part of a strong and experienced team, where everyone can rely on the experience of others.
